

## LearnScapes – Client Testimonials

### Our Customers Say it Best

At LearnScapes our clients are very important to us and we always make every effort to ensure client satisfaction.

On this page you will find some selected examples of the many kind comments sent to us by our customers.

"After an extensive search in the South African market for an e-Learning course on HIV

and AIDS, we eventually found a product that is professionally designed, has high quality content and is targeted at the right audience. We needed something that was basic enough for any person, but also sophisticated enough for executives. This product met and exceeded these requirements." - **Willie Maritz**

I think it is amazing, it is just unfortunate that we never had it before. -**Veronica Kgabo (Head - Diepsloot Combined)**

"The product is very useful, it should form the basis of Telkom HIV/AIDS training and awareness." -**Emile Van Druuten**

"Ideal program for the web due to the sensitivity of the subject matter. Contents well explained and thorough." -**Rainer Ladewig**

"There is a lot I didn't know about HIV/AIDS and some other issues related to it. The course is quite helpful and well designed. It's designed such that it's not boring to the reader. Thankx" -**Zweli Zwelandile**

"I would like to find out if it is possible to acquire the HIV/AIDS course which is on the web. I would like to share this with my teenage son. I also feel that this course should be shared with teenagers at schools and more specifically teenagers that are getting counselling for alcohol/drug related problems. " -**Norman Whitehead**

"This is a good course. I have learnt a lot about the killer disease, how one gets infected, how it spreads and how can all of us help fight it. Since knowledge is power, I suggest that this be made available to every Telkom employee. " -**Joseph Ndimande**

"A very educational course. Thanks. " -**Shennen Balbhadur**

"The course was understandable and human friendly. I learned a lot about aids. " -**Phillimon Tshube Ledwaba**

"This is a wonderful tool to educate staff and also to update and broaden knowledge. Staff should share this information with friends and family especially with youngsters. Keep up the good work. " -**Theo Rooy**

"Firstly, please convey my thanks to everyone concerned for making learning in Telkom SA ltd so easy. Who would have thought that there will be a website where employees can go and broaden their knowledge. I just finished the HIV Course and I saw it was pragnated with information. I thought I knew everything about HIV especially as I am married to a nurse, but was proved wrong. " - **Allan Joseph Swanson**

**St Stithians  
Girls'  
College**

"Pertinent and essential in the SA context" "The programme would be an excellent way for people to learn about HIV/AIDS in a practical

"hands on" way without any embarrassment and which would respect personal privacy." -Patsy Melhuish

Our learners have benefit a lot, after every session of training they became more confident and they are outspoken about issues now. We need to engage the students in more

programs like this. -Ellen Kondowe (Head - Letsibogo Girls High)

**Prestige  
College**

"I was fascinated by the visuals or rather graphics on the programmes and how clear the speakers were at driving their points through." "The impact that

it had on me as someone who thought I knew much about HIV/AIDS and safe sex was that I began to learn again. I began to see with different eyes, I began to hear the message differently. I started hearing how positively we can stay HIV negative and still enjoy the pleasures of life." -Tshwanelo Nmutlana
